

Empower Your Business with an Operational Edge

ORION Advantage Pharma is an ERP Suite, designed specifically for the specialized demands of the mid-market Pharma Industry and incorporates its best practices. This addition to the highly successful ORION Advantage portfolio is an integrated business information solution that enhances a Pharma mid-market's strategy for addressing today's global business challenges. The software integrates the Pharma mid-market's business processes seamlessly, giving it maximum flexibility.

This comprehensive single window solution gives you freedom from the pains of dealing with multiple IT vendors and the pre-configuration makes the solution ready-to-use, minimizing the efforts of a typical implementation phase.
